Remember the Lot Sale

Everybody will be coming to Clay City Saturday, March 11th, to attend the big lot sale as advertised in the Times. Henry & Fleenor, who have this sale in hand, are experienced real estate men who have conducted many such sales. Residence building lots in Clay City on the market are very scarce, so this sale affords a timely opportunity for persons to buy the site upon which to later build a home. Business in general about Clay City is as much on the incline as the average of its size in Kentucky, and as the business of the whole country picks up so will business pick up about Clay City. You should be ready for the expansion by buying a town lot at Saturday's sale.

Now Running Day and Night

The demand for Snowflake and Eastern Glow flour, products of the Clay City Roller Mills has grown so strong that this mill has put in a night force, and is now, for the present at least, running day and night. Quality in the flour they make is the sequel. This combined with the business ability attributed to the proprietors, means success spelled in large letters, if the people of Powell county prove true to their duty in patronizing deserving home enterprises.

J. R. Stone Town Marshal

J. R. Stone has been selected as town Marshal and city Collector of Clay City. Mr. Stone is a fit man for the place and will soon be marching the offenders of the law before Judge Daniel to have full justice meted out to them. Better get your pocket book out ready to pay your city tax if you owe it. Mr. Stone will tolerate no foolishness nor further delays.

C. L. Russell Improving

C. L. Russell, who underwent an operation several days ago for appendicitis, continues to improve, and it is now thought he will recover. This will be good news to his many friends who did not expect to see him return to Clay City alive when he left February 26th for the hospital so serious had his condition grown after several days of suffering.

In Lexington Hospital

Everett King, one of Uncle Sam's boys, is confined in a Lexington hospital with a very serious attack of pneumonia. His mother, Mrs. Joe King, and sister, Mrs. Fannie Holmes, went Monday morning to be with him.

Mrs. Martin Breaks Arm

Mrs. W. C. Martin fell in her home Thursday and broke both bones of her left arm just above the wrist. The broken bones were promptly set and she is now getting along real nicely.

An entertainment will be given at the close of the school by the Mothers' Club for the benefit of the school. Watch for program later.

Silver Greys and Minstrelsy

This favorite program will be rendered at Stanton College Friday night, the 10th. This is the entertainment given at the local school house two weeks ago, and which has justly been termed really the most entertaining of any attempts in this city for many months. We have yet the first time to hear one say they didn't get double their money's worth. This program will be repeated in Clay City again soon when it is expected another overflowing house will greet them. Minstrelsy is becoming a very popular method of church entertainments in all parts of the country but this is the first time this character of entertainment has been produced in Clay City, but it certainly has met a most hearty welcome.

Large Shale Deal Consumated

The capitalists, who some months ago took options on shale lands east of Clay City belonging to Lee McPherson, Charlie Welch, H. M. Curtis, G. W. Clark and Weed Townsend, were here last week and took deeds for all they had bargained, and paid the cash for same. There were about 350 acres of it all, and this last payment amounted to \$11,000. The action of these capitalists shows the value they attach to shale lands. It is only a question of a very short time until our shale will be grinding up and turning the black dust into immense wealth.

Moves to Breathitt

J. L. McPherson and family have moved this week to Breathitt county to reside. Mr. McPherson has rented a splendid farm there and will continue to deal in cattle and bring them to the Mt. Sterling Market.

Garden Seeds

Through the courtesy of Congressman J. C. Cantrill, the Times has received a bag of garden seeds for distribution in this county. Those wishing a package will kindly call at this office and get same.

New Police Judge

Judge D. R. Daniel has been commissioned by Governor Morrow Police Judge of Clay City and was sworn into office Monday. The Judge having served one term as County Judge will be at home on the bench again.

School Term Cut Short

Owing to the lack of funds, the Clay City school has had to be restricted to a seven months term instead of nine. This being true, the school will close March 24th.

Shale Shipped Away

J. M. Easterling shipped a ton of the famous Clay City shale to an eastern laboratory to be tested and tried on its merits.

Two teaspoonsful of Tanlac in a little water taken three times a day just before meals will make you eat better, feel better, sleep better and work better. C. Shimmessel.

A Plea for Honesty, Justice and Decency

The remarks below from such a noted educator are timely truths well spoken and are identical thoughts of an article appearing in this paper February 16th entitled "Education?"

A plea that American educational institutions place greater stress on "the old fashioned virtues of honesty, justice and decency" and less on the subjects generally termed "highbrow," was made today by John J. Tigert, United States commissioner of education, in an address before the National Education Association department of superintendence convention.

"If we cannot teach these virtues along with modern thought, then we had better dismantle our splendidly equipped institution and return to the old log school house," said Doctor Tigert. "In the words of a famous evangelist, 'I would rather have my boy in heaven learning his A. B. C.'s than in hell reading Latin and Greek.' We had better have citizens who have character and little education than citizens whose knowledge is a peril to society."

"The man who discovered that surgical instrument should be sharp made an important discovery, but much more important was the discovery that they should be sterilized. Better to have a dull knife that is clean than a sharp one that is foul."

"Germany showed us plainly the evil of education for culture and efficiency without proper social attitude. Germany raised the efficiency of education to the 10th power, but this efficiency was directed into a spring at the throat of the world and brought on a Pentecost of calamity that almost destroyed civilization."

"A learned man has said that 4,200 college professors caused the World War, and he refers to the 4,200 professors who so efficiently taught the Germans that 'might is right,' 'we are supermen and God demands destruction of the weaker people about us and now abide faith, hope and hate, and the greatest of these is hate.'"

"Illiterates are not at all bad citizens, nor are they altogether inefficient. Nor is anything further from the truth than the general belief that our illiterates are mostly negroes and the mountain whites of the South. The real centers of illiteracy are the big manufacturing states—Massachusetts, New York, Pennsylvania and Illinois. It is unfair to criticize the whites of Kentucky, Tennessee and North Carolina because their educational standards are low."

"Abraham Lincoln was one of these people. They may be illiterate, but they are splendidly efficient as citizens. These mountain people won the battle of King's Mountain in the dark hours of American history. They destroyed the flower of the British army, fresh from campaigns against the armies of Napoleon at New Orleans. And note the three heroes selected by General Pershing as the country's greatest and assigned to the burial of the unknown soldiers—Sergeant Woodfill, a Kentucky mountaineer; Sergeant York a Tennessee mountaineer, and Major Whittlesey, of New York."

Mr. J. E. Burgher,
Clay City, Ky.

Dear Sir and Friend:

Even at this great distance, I have been watching with more than ordinary interest the splendid fight that is being waged by the lovers of the Bible and believers in its divine truths, against those who would destroy it and its teachings without giving a reason why or offering anything in its stead.

It makes us proud of our native state to know that there are so many stalwart Kentuckians who are true to the faith of our fathers and have the courage of their convictions to take a stand against the teaching as fact of unproven theories and assumptions. It is surely time that Christian people, not only in Kentucky but everywhere, should not only protect but demand that insidious theories taught under the guise of science and a pretended scholarship and made the occasion of attack upon the inspiration of the Bible should no longer have a place in the institutions of learning supported or controlled by them.

They tell us that the Bible is unreasonable, and yet, they offer us in its stead theories so unreasonable that evolutionists such as Tyndall, Spencer, Darwin and others are far from agreed on the theories they offer, and yet they would have us accept them as facts. The unreasonableness of this theory has often been demonstrated, but space here will only permit one instance which I desire to mention.

John Newton had a valued friend who ignored the Bible and said that all things came by chance. They were both great students of astronomy, and so Newton devised a plan to make his friend feel ashamed of his "by chance" theory of creation. He had made for him an astronomical globe by one of the best artists of London under his specific direction and had it placed in his library where his friend was to meet him on a certain day to talk over astronomical facts. The globe arrested his attention at once as a wonderful production of intellect and art, and he exclaimed:

"Why, Newton, where in the world did you get that magical work of art and star knowledge?"

"Oh," said Newton, "I came into my library yesterday and here it was. It came entirely by chance, just to convince me of the truth of your theory of creation."

His friend saw the point at once—how impossible it was, and if so, how impossible that the Heavens that declare the gospel of God could have come by chance. If this human picture of them could only come by the design of a scholar and the ex-

pert work of the artist who made it. As a result he became an earnest Christian.

Of the many splendid articles I have read on this subject there is none that I have more fully endorsed or more heartily enjoyed than the two in the Times of February the 10th, under the heads of "Harking Ours in the Street" and "Education?" Such burning words coming from a friend, tried and true, like the Editor of the Times, strengthens not only the ties of friendship, but even more the ties of our common Christian Faith. L. G. Christopher.

Tanlac is appetizing and invigorating. Try it today. C. Shimmessel.

NOTICE!

The members of the Mountain Christian League wish to get in touch with all children that have no home from the age of 1 to 12. Reader, if you know of a child that has no home, or of a mother that has a number of children and is not able to support them, and if she would be willing to let them be taken and put into good homes that would school and clothe them, write L. F. Martin, Field Superintendent, Old Landing, Ky., giving name and age of child, and if boy or girl, and if it has father or mother living.

If you know of a home that would like to have a little boy or girl that would do a good part by it, write him. We have now on hands children, boys and girls, that are in need of good homes. Will you not become a member of the Mountain Christian League and help in this much needed work?

A GOOD TONIC FOR OLD PEOPLE

Gude's Pepto-Mangan Restores Strength and Prevents Illness

Aged people often need a good blood tonic. When the blood becomes clogged with poisons from the system, Gude's Pepto-Mangan purifies it by driving off the waste matter. Good blood is full of vitality and prevents illness, giving the body greater power of resistance. The weaknesses of old age are greatly helped by a supply of rich, red blood. Gude's Pepto-Mangan is sold in liquid or tablet form by all druggists. It has been recommended by physicians for 30 years and is a valuable tonic and builder for the weak and run down of all ages from childhood to old age. Advertisement.

The American Legion will meet at Stanton the first Saturday of each month at 6:30 P. M.

Keep the Children Well

Don't neglect a child's cold. You can relieve feverish colds, coughs, "snuffles" and tight wheezy breathing with Foley's Honey and Tar. It checks croup, too. John S. Hunnicutt, East Orange, N. Colds & Headache

"For years we have used Black-Draught in our family, and I have never found any medicine that could take its place," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

THEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for a cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved us many dollars . . . I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to keep in the house. I recommend Black-Draught highly and am never without it."

Back Hurt?

When the kidneys do not properly do their work or purify the blood stream, waste products and poisonous acids remain in the system and cause backache, rheumatic pains, lumbago, sore muscles, swollen joints, stiffness, lame back and similar symptoms.

Foley Kidney Pills

regulate and restore the healthy, normal action of kidneys and bladder, bringing clean blood and better health, with freedom from aches and pains.

J. George Higgins, Bennington, Vt., writes: "Last fall I was attacked with lumbago and suffered untold agony. I had a severe pain across my back and at times could not dress or undress myself. I was advised to take Foley Kidney Pills for my trouble. After taking them for a few days the pain in my back left me and I have not had any lumbago since that time, although that was months ago. I recommend Foley Kidney Pills to all who have lumbago."

BIG LOT SALE

CLAY CITY RESIDENCE LOTS

On the Premises,

Saturday, March, 11th, 1922, 10: a. m.

SCOTT ADDITION TO CLAY CITY

As Agents for John Scott we will sell at PUBLIC AUCTION on the above named date, his block of city residence lots consisting of about 60 nice residence lots situated on the southwest side of Main street in the west part of Clay City. These lots are well located and well laid out for residence property in one of the best parts of the city, on the main street of the city and in close proximity to the BIG SHALE PLANT that is now being erected.

Clay City is now coming into her own and her future is assured. It is no flimsy boom business this time, but is a real business that will make Clay City all that the people of Powell county could expect or desire. The business that is about to make Clay City one of the important towns on the state map is not the drilling of a few oil wells to be pumped dry within a short few months, but is a **Great and Wonderful Development of Natural Wealth** lying at your very door, involving the expenditure of millions of dollars in permanent improvements and a twice-a-month payroll that will exceed your fondest hopes. It means large business for Clay City, a large number of new homes to be built for employees of the new companies as well as others coming to Clay City to engage in various kinds of business. It means that the best building sites will soon be taken up and greatly increased prices for good lots. The wide-awake man or woman of Powell county will see the situation at once and take advantage of this big lot sale, buy lots DIRT CHEAP and build houses on them to rent or occupy or sell them at a fine profit. Be one of the far-seeing crowd, attend this sale, buy some nice lots and make your money safe and your investment sure.

Don't forget the time and place, SATURDAY, MARCH 11th, 10 o'clock, a. m., on the premises. Cash prizes given away. But you must be on the grounds to get one.

TERMS OF SALE: One half cash, balance in two notes, six and twelve months. \$25.00 deposit on each lot on day of sale and balance of first half as soon as deed can be made. You make the price, we make the deed.

Maybe it Isn't Spring Fever

If you feel tired, languid, "unsettled," morbid, blue—if you have a sick headache—don't say "spring fever" and let it go at that. Take a Foley Cathartic Tablet tonight and you will feel better in the morning. If your condition is the result of disordered digestion, there is nothing better. Sherman Robbins and Son, local dealers.

Valuable Items Lost

Many valuable items sent to this office for publication are consigned to the waste basket each week because they are too lengthy or because the writer did not sign any name to the article. The Times is a purely local paper, small in size, but large enough to ordinarily hold all the local news we can get. The editor is always eager to publish short items of general interest. But it is necessary that we know who wrote the article and that it be short enough to not crowd out news items of general interest.

"The Rats Around My Place Were Wise," Says John Tuthill.

"Tried everything to kill them. Mixed poison with meal, meat, cheese, etc. Wouldn't touch it. Tried RAT-SNAP, inside of ten days got rid of all rats." You don't have to mix RAT-SNAP, with food. Saves fussing, bother. Break a cake of RAT-SNAP, lay it where rats scamper. You will see no more. Three sizes, 85c, 65c, \$1.25. Sold and guaranteed by J. F. Smith & Co. and O. Shimfessel.
